Using Hypnosis with Handwriting Analysis

Procuring the Sample

The intake form – Allowing the writing sample to serve two purposes:

1. Writing their goals for the hypnosis sessions
2. Any information written in cursive, by-passes the critical factor of the conscious mind and goes directly into the subconscious mind

The First Review

What are the letters that I, as a hypnotist, look for first?

t, y, k g, m, and d

Hypnotic Phrases

After a quick review of my client’s handwriting, I use hypnotic phrases as I recommend changes in order to create trust and belief in the science of handwriting.

BONUS: Backward Handwriting – If it’s really *brainwriting*, will it still have the same strokes when it’s written backward?
